A LITTLE ABOUT THE PROCESSING OF THE APPLICATION

- ✓ When the application reaches SDR, administrative proceedings start.

The applicant will then be notified of any change.
- ✓ The specialist committees process the applications and submit their priority settings to the Executive Committee. Each recommendation must be academically justified.
- ✓ The Executive Committee meets as soon as the specialist committees' settings are available to adopt awards.
- ✓ The Executive Committee always selects reserve candidates for the work stipends and short-term stipends. Situations may arise where an application or award is no longer relevant. Names of backup candidates will not be announced. The applicant also cannot be informed whether the person in question has been nominated as a reserve candidate. Publication will take place if a reserve candidate "moves up" and accept the work stipend.
- ✓ The applicant is entitled to receive an answer to the outcome of the processing. This also applies to applications that have not been awarded stipends. A press release is written in which awarded stipend recipients are published.

COMPLAINT, IF ANY

- ✓ Only the case processing can be appealed, not the artistic discretion.
